

AlbaChem® HLR Label & Adhesive Remover

HLR makes it easy to remove heat transfer text and barcode labels, name tags, department logos, emblems, RFID labels, mending patches and garment identification/routing labels. Dry cleaners, hotels, casinos, hospitals, nursing homes, rehab facilities, correctional facilities, uniform rental, costume rentals use heat transfer labels of all types to identify customers, uniforms, POS, etc. Many need to be removed at some point due to error, employee changes, past dry cleaning.

Advantages:

- Most powerful adhesive remover
- Great for removing tagless
- Leaves no stains
- Does not contain any chlorinated solvents

Packaging:

Item No.	Package Size	Case Pack	Case Weight	Hazmat Information
1021	20 fl. oz. (0.59 liters)	12	19 lbs.	Flammable Liquid, n.o.s/ *Limited Quantity Exemption

*Limited Quantity Exemption: This product, as packaged in the 20oz. containers, meets the exemption requirements of section 173.150 (49 CFR173) as a limited quantity for ground shipments within the United States. Limited quantities require the limited quantity diamond mark on all outer cartons.

Directions for use:

Apply drops HLR to inside of the garment where the label is. Apply a little more on the top side around the edge of the label. Pat with a cloth so that HLR reaches the adhesive.

With a sharp edge, lift the label from the fabric. If there is residue of glue, apply HLR to residue and wipe off with a cloth.

Technical Data:

Physical Properties: Appearance: Clear colorless liquid
Solubility in Water: Yes
Odor: Solvent
Chemical Family: Acetal/Ester Mixture

Environmental:
Volatile Organic Compound (VOC): Yes<20%
Hazardous Air Pollutant (HAP): No
Ozone Depleting Substance: No
SARA 313 Chemicals: No
California Prop 65 Chemicals: Yes

Consult safety data sheet for all safety and handling information.
