

AlbaChem® Pallet Clean

AlbaChem Pallet Clean is a safe and effective way to clean and renew screen printing pallets. Pallet Clean dissolves all types of adhesives, so they can be easily scraped off the printing pallet. Simply spray pallet clean onto the pallet. Allow a few minutes for the solution to work. Scrape and wipe the pallet clean

Advantages:

- Removes both aerosol and water based pallet adhesives
- Removes dirt, ink and residue
- Does not contain petroleum solvents
- Very low odor
- Cleans and renews printing pallets

Packaging:

Item No. 1038

Package Size 8 fl. oz. (237 ml)

Case Pack: 24

Case Weight : 15 lbs

Hazmat Information: Non-hazardous

Directions for use:

- Apply a light mist of Pallet Clean to all pallets
- Allow a few minutes for Pallet Clean to soak into the old adhesives.
- Using a scraper, remove all adhesive from pallet surface
- Apply another light mist of Pallet Clean and wipe off pallet
- Re-apply if necessary

Technical Data:

Physical Properties:

Appearance: Clear/Colorless Liquid

Solubility in Water: Complete

Odor: Very mild

Chemical Family: Glycol Ether Acetate Blend

Environment:

Volatile Organic Compounds (VOC's): < 3%

Hazardous Air Pollutants (HAP's): None

Ozone Depleting Substances: None

California Prop 65 Substances: None

Consult safety data sheet for all safety and handling information.
