

# LUBRICANTS

## General Information/Technical Data Sheet

## AlbaChem® Quick Stitch Thread Lubricant

AlbaChem Quick-Stitch moistens and coats thread and yarns so that they run smoothly through your sewing & knitting machines. This reduces friction, chatter and heat build-up, greatly improving production. Quick-Stitch is a “disappearing lubricant.” The thread stays moist during production and then evaporates completely leaving the fabric free of any residue.

### Advantages:

- For all Threads & Yarn
- Cools Needles & Eliminates Static
- Prevents Frayed and Broken Filaments
- Keeps Threads & Yarns Running Smoothly
- Can also be used as a Mold Release Agent

### Size/ Packaging

Item No.	Size	Case Pack	Case Weight
3009	1 gal	4 per box	32 lbs
3010	5 gal	1 Pail	37 lbs
3011	55 gal	1 drum	400 lbs

### Technical Data:

Appearance: Clear liquid

Odor: Odorless

Shelf life: > 1 year

Flash point: 97°C (207°F) [ASTM D-93]

pH value: N/A

VOCs: none (LVP - VOC)

Solubility in water: Negligible

CA Prop 65 Chemicals: None

Hazardous Air Contaminants: None

### HMIS HAZARD CLASSIFICATION

Health: 1 (mild)

Flammability: 1 (mild)

Physical hazard: 0 (negligible)

Transportation Information:

Not classified as dangerous for transport

UN number: NA
