

AlbaChem® Sten-X RFU Stencil Remover

Sten-X Stencil Remover is a "ready for use" emulsion remover. Sten-X quickly breaks down emulsion for fast efficient screen reclamation. Biodegradable and VOC free Sten-X is perfect for printers who do not want to make their own emulsion removers

- Ready to use, regular strength emulsion remover
- Has superior wetting properties
- No precipitation of active ingredients

Packaging:

Item No.	Size	Case	Pack	Case Weight
4021		1 qt	12 per	29lbs
4022		1 gal	4 per	37lbs
4023		5 gal	1 pail	43lbs
4024		55 gal	1 drum	500 lbs

Safety:

- Non-Hazardous for shipping
- No Hazardous Air Pollutants (HAP's)
- Non-Flammable
- Zero V.O.C.'s
- Low Vapor Pressure
- No Toxic Chemicals
- No California Prop 65 Chemicals.
- No SARA 313 reportable chemicals.

Directions for use:

After all ink and tape have been removed, wet screen and apply Sten-X with a soft bristle brush, scrub pad, or rag to both sides of the screen. Once emulsion has softened, flush with high pressure rinse starting at the bottom of the with a side to side motion working upwards toward the top. Repeat rinse on other side of the screen.

TIP: For faster production, apply chemical to both sides and set screen to the side. Then move on to the next screen, after 3-5 screen have been scrubbed, return to the first screen and flush with high pressure as described above. Repeat on the remaining screens. Make sure you flush screens before chemical dries. This technique allows the chemical and time to work for you!

Technical Data:

Appearance:	Clear
Liquid Odor:	Mild
Shelf Life:	> 1 Year
Flashpoint:	None
Biodegradable:	Yes
V.O.C.'s:	0 grams per liter
Vapor Pressure:	1.00 mm Hg @ 20°C
Solubility in Water:	Compleat

HMIS HAZARD RATING:

Health:	2 (Moderate)
Flammability:	0 (Insignificant)
Physical Hazard:	3 (High)
Personal Protection:	B (Gloves & Eye Protection)
CA Prop 65 Chemicals:	None
Hazardous Air Pollutants:	None
Transport Information:	Not Regulated
