

## Haze-Free Ghost and Haze Remover

Haze Free is a powerful haze and ghost remover that works quickly to dissolve ink and residual emulsion stains from all types of mesh. Drain safe and biodegradable, Haze Free is the most effective Haze Remover on the market.

Specially formulated to remove imbedded U.V. and plastisol inks (haze and ghost images) that remain on the screen.

- Emulsifies and dissolves the ink constituents; resins, binders, pigments, plasticizers, etc.
- The solution suspends these constituents so re-attachment to the mesh surface is prohibited, thus allowing for water-rinse removal.
- Excellent degreaser, as it also removes dirt, residues and sizing.

### Packaging:

1 Gallon (case pack 4): Item No. 4042  
5 Gallon Pail: Item No. 4043  
55 Gallon Drum: Item No. 4044

### Safety:

- High Flashpoint – 161°F
- Low Vapor Pressure
- No Petroleum Distillates
- 100% water soluble.
- Under 50% VOC's

### Directions for use:

After tape, ink, and stencil have been removed, apply Haze Free with brush or scrubber pad to the stain on both sides of the screen. Wait 30 seconds to 10 minutes (maximum). After ten minutes the possibility of weakening mesh increases. Flush with high pressure water.

### Technical Data:

Appearance: Orange Liquid  
Odor: Acrid / Solvent  
Shelf Life: > 1 Year  
Flashpoint: 161°F  
V.O.C.'s: 421.4 g per liter (less exempt materials)  
Vapor Pressure: 1.1 mm Hg @ 20°C  
Solubility in Water: Appreciable

#### HMIS HAZARD RATING:

Health: 2 (Moderate)  
Flammability: 2 (Moderate)  
Physical Hazard: 0 (Insignificant)  
Personal Protection: H (Safety Goggles, Gloves, Protective Apron and Vapor Respirator)

SARA 313 Components: Yes  
Specific Gravity: 1.028  
Transport Information: Potassium Hydroxide Solution,  
Hazard Class 8, PG III

**WARNING:** This product can expose you to 1-Methyl-2-Pyrrolidone, which is known to the State of California to cause birth defects or other reproductive harm. For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).
