General Information/Technical Data Sheet

ALBA® Industrial Strength Spot Remover/Dry Cleaning Fluid

General Description:

Made to remove stains that are not soluble in water. This includes oil, grease, graphite, tar, adhesives, paint, oily foods, make up, shoe marks and more. It is safe to use on most fabrics – both dry clean only fabrics (s-coded) and washable fabrics.

Great for use on clothing, upholstery, drapery, carpeting and more.

Packaging:

Item No. 4416 16oz. container 12 per case 19 lbs/case
Item No. 4432 32oz container 12 per case 11 lbs/case

Directions for use:

Use only in a well ventilated area. Place an absorbent material under stained area, if possible. Pour a small amount of ALBA Cleaning Fluid onto a clean white cloth. Blot stains with ALBA. Then rub stained area until stain dissolves. Using a second clean white cloth rub area to remove any excess liquid. Re-apply if necessary. Always test ALBA on a hidden part the fabric first.

Technical Data:

Appearance: Clear Liquid
Odor: Mild Solvent
Shelf Life: > 1 Year
Flashpoint: > 77°C / > 170°F (TCC)
pH Value: N/A
Non Exempt V.O.C.'s: 3%
Solubility in Water: Insoluble
Prop 65 Chemicals: None
Hazardous Air Pollutants: None

HMIS HAZARD Rating:
Health: 1 (Slight)
Flammability: 2 (Moderate)
Physical Hazard: 0 (Insignificant)

Transport Information:
Not classified as dangerous for transport.
UN Number: NA
