

ADHESIVE ACTIVATOR General Information/Technical Data Sheet

AlbaChem® 9211 Adhesive Activator

This product works with most all cyanoacrylate adhesive to form a quick and permanent bond. The spray eliminate surges that cause overlaps and missed spots associated with pump spray products. Achieve consistent curing all of the time.

Advantages:

- Cures screen mesh to wooden and aluminum frames.
- No over-laps or missed spots.
- Quick & permanent bond.
- Provides an even application.

Packaging:

Item No.	Package Size	Case Pack	Case Weight	Hazmat Information
9211	Net Wt. 10 oz. Aerosol	12	11lbs.	Flammable Gas. *Limited Quantity Exemption

*Limited Quantity Exemption: This product as packaged meets the exemption requirements as a limited quantity for ground shipments within the United States, Canada and Mexico. Limited quantities require the limited quantity diamond mark on all outer cartons.

Directions for use:

Screen Printing: AlbaChem 9211 Adhesive Activator is for use with most cyanoacrylate glues. The adhesive activator will instantly lock the cyanoacrylate glue to firmly hold screen mesh in place on both wood and aluminum frames.

Other Industrial Applications: After applying cyanoacrylate glues, spray AlbaChem 9211 onto glued surface to lock the materials being bonded.

Technical Data:

Physical Properties:

Appearance: Clear colorless liquid
 Solubility in Water: Yes
 Odor: Strong, sweet odor
 Chemical Family: Ketone

Environmental:

Ozone Depleting Compounds: None
 Recyclable Packaging: yes
 VOC's: < 32%
 Chlorinated Solvents: None
